Agenda

12:15 - 12:30   Community Connection

12:30 - 1:00   Look Back

1:00 - 1:30   Look At Each Other

1:30 - 2:00   Look Forward

Community Connection

Have one member of you team introduce your:
- Community
- Aim Statement
- Driver you are most focused on

Look Back

Look Back

Let's take a moment to reflect at what we have heard at the Learning Session. It's been a lot...

Look Back

With your Improvement Team, take some time to list out things you heard from presenters and peers that intrigues you.

Check the box that best describes how you are feeling about that idea.
- "This could be easily implemented"
- "We want to try this, but do not know how"
- "I do not fully understand this, but I'm intrigued!"

If you remember, jot down where/who you heard this from!

Look At Each Other

Look At Each Other

Please the join the table listed below and introduce yourself to the other teams that you will be collaborating with.

Table 1	Table 2	Table 3	Table 4
Omaha/Council Bluffs Spokane Jackson/Rankin	Columbia-Boone Kent North Central Florida	Chester Co West Palm Beach Tucson/ Pima Co	Greater Kansas City Tallahassee Albuquerque Santa Fe

Table 5	Table 6	Table 7
Springfield Pinellas Co Thurston Co	Long Beach Richmond/ Henrico	Middlesex Pasadena Winston-Salem

Look At Each Other

Please share the new ideas you heard with the group.

As you hear from others, think about if you have insight on the ideas.
- Has your community tried this?
- What additional information can you share?
- Is your community also interested in trying this?

Look At Each Other

Name your champion!

Are you able to identify one person in your group who could help another community with implementing a new idea, a process, or a test?

Look Forward

Look Forward

Testing a Change Idea sounds easy on paper, but getting started can be so difficult. Let's do this next one together.

As a team, pick the driver you would like to focus your test around:

1.   Homelessness Prevention
2.   Housing Placements
3.   System-Wide Collaboration

Look Forward

Think of this group as your cohort for the next PDSA cycle.
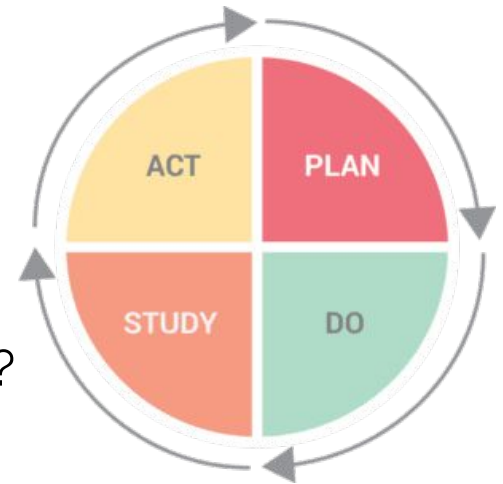

If possible, try to align:
- Which change idea you are testing
- The start date and end date for this test
- How you plan on measuring the success of the test

Look Forward

We are focusing on the **P** of PDSA. This time is to **PLAN** your test.

Answer these questions:
- What is the change idea we are testing?
- Who will be conducting the test?
- When will the test begin and end?
- How will you run the test?
- How can we measure the success of the test?
  - What would a perfect test look like?
  - What result would lead us to scrap this idea?

Utilize the Cohort!

- Get someone's contact information
- Can you schedule some time now to meet with someone from another community to talk about how your test went?
  - Let's hold our team and others accountable.
- Start a Slack channel with your cohort members.

Reporting Reminders

Narrative Reports are due today!!

Please take 5-10 minutes to fill us in on what your community is focusing on.
